

Mnemonics

- how to remember anything

Use memory techniques to learn how to associate everything you want to remember into mental pictures. These techniques are used amongst the worlds sharpest minds. Especially with the World Champions of memory. Imagine yourself being able to remember and recall 10 names just after a quick introduction at a meeting or a list of 30 reminders in any order in a 30 minute crash course with Rufus Wiена.

Whether you choose to apply Mnemonics to your work or daily life we can assure you that these techniques will be fun, engaging, and worth every second. Mnemonics can be applied in the following fields:

- Learning a foreign languages
- Recalling names
- Mathematics
- Communication & instructions

This Course will give you:

- Confidence in your daily life. The ability to recall more than the average list of names and numbers. A more efficient way of learning a foreign language.
- An in depth course on how to master Mnemonics like the World Champions in Memory do. A review of the Linking Method, Substitute Method and The Memory Palace method.
